

gclib 567

C API for Galil controllers and PLCs

Galil Motion Control

Fri Jun 4 2021

Contents

Chapter 1

Getting Started

The Galil Communication Library (gclib) is a communication library for Galil motion controllers and PLCs. A number of programming languages, operating systems, and hardware platforms are supported.

The library consists of a basic set of function calls ([gclib.h](#)), and an open-source extension library ([gclibo.h](#)). A number of examples are provided to demonstrate how to use the library with various [languages](#).

The gclib will import virtually anywhere a dll/so/dylib can be imported. See [installation](#) for details. Please contact support@galil.com if the language or platform required is not listed.
